# Product Card

---

# Product: Garden Kitchen
# Model: SKY KITCHEN

**Purpose:**

1. **Preparing meals outdoors: A garden kitchen allows you to cook surrounded by nature, which reduces the boundaries between home and garden. This allows you to enjoy the fresh air while preparing meals.**

2. **Barbecue area: Many garden kitchens are equipped with grills, smokers or fire pits, which allows you to prepare dishes using different cooking methods, such as grilling, roasting or smoking.**

3. **A garden kitchen becomes an ideal place to organize meetings with family and friends. Easy access to the kitchen means that you can quickly serve food and drinks, and being in the garden is conducive to relaxation.**
4. **Growing and using fresh ingredients: Many garden kitchens are integrated with gardens, where fresh fruit, vegetables, herbs are grown. This allows you to use your own, organic ingredients in everyday cooking.**

5. **Design and aesthetics: A garden kitchen is also a decorative element of the garden. A well-designed place can become the focal point of the garden, influencing its aesthetics and functionality.**

6. **Multifunctionality: It can be used not only for cooking, but also as a place to relax, play or store garden equipment. Many garden kitchens have furniture, sinks or refrigerators, which increases their usability.**
